

DRI-TEX

Drink spills, traces of make-up, food stains or the alike adorn our headboards and mattresses. It's a hassle to unzip the upholstery or mattress cover to wash them every time you have an accident.

A fabric treated with Dri-Tex effectively repels oil and water based stains. Thanks to the microscopic 3D structure of the fabric surface, water rolls off the mattress, taking dirt and stains with it. Wipe of the remaining dirt with a damp cloth and you are done!
Simple.

Water Repellent

Soft Handle

Resists dirt and stains

Longer lasting protection for your mattress
